# **RIMtech Online Training**

# Private Course

State of the Art Electronic Recordkeeping Techniques & Technology

# **EDRMS Project Management - Basic**

**Duration** 8 hours (1 day)

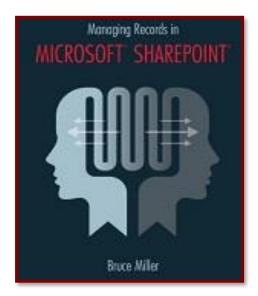

Instruction by Bruce Miller IGP, MBA

PM1V

RIMtech Private Online Courses are delivered on-demand to a single organization, with up to 10 participating employees. Content is focused/tailored to your organization, and your particular requirements/interests.

Designed for IT and RIM Professionals, or project management specialists, this course is an overview treatment of managing an Electronic Document & Records Management System (EDRMS) project. Based on RIMtech's standardized EDRMS project model, you'll learn how to assign resources, establish a leadership team, estimate project costs, make all necessary critical decisions, conduct a proof of concept, and manage the project from concept through to enterprise-wide deployment. This course is designed and delivered by Bruce Miller, author, independent consultant, and leading expert in electronic recordkeeping, and author of "Managing Records in SharePoint". This course is highly interactive. In team exercises you'll apply your new knowledge and insight to develop an advanced, sophisticated project model for a hypothetical organization that specifies resources, duration, and costs, including migration from a legacy system, integration with a business system, and even including an end user adoption plan.

Prerequisites → EDRMS – Basic, or SharePoint EDRMS – Basic.

## **Learning Objectives**

Upon completion of this workshop, participants will be able to:

- Allocate the right quantities and types of human resources to develop and deploy the solution
- Define all the necessary detailed work tasks, their duration, and assigned resources
- Learn how to utilize a standardized project model, and adapt it to your particular organization
- Identify the 20+ necessary critical decisions every EDRMS demands
- Design a repeatable post-pilot deployment plan for full enterprise deployment
- Organize a regime of business units as the basis for project planning
- Develop a high-level GANTT chart to track project completion
- Define a project management team with roles, responsibilities
- Learn how to conduct an effective Pilot/Proof of Concept
- Develop a user adoption plan
- Discover "Lessons Learned" from real-world projects

#### **Who Will Benefit**

Records/Information Management professionals, IT managers and specialists, project managers, and senior management.

## **Takeaway Tools**

Participants are supplied with all course materials, including a reusable project management model.

#### **Certification Credits**

IGP 14 (ARMAIGP2020\_00058) CRM 7 (2020121426799)

## **Testimonials**

"I loved the performance measure aspect, and 20 suggested decisions. This was worth the cost of the course alone."

"I really liked the presenter. He engaged the attendees and asked thought-provoking questions that generated some lively conversations."

"This was one of the most engaging and informative seminars I can remember attending. I got a lot of great takeaways and can enthusiastically tell my employer that this was a productive use of my time and training dollars."

"Thank you! This course hit the nail on the head – it touched on many of the issues that I see in the workplace and provided me with the guidance and affirmation that will help me to manage these issues.

Awesome seminar!"

#### Instructor

Bruce Miller, MBA, IGP is a world leading expert on electronic recordkeeping. He is an independent consultant, an author, and an educator. Widely regarded as the inventor of modern electronic recordkeeping software, he pioneered the world's first commercial electronic recordkeeping software in 1989. In 1997 he achieved the world's first e-Records software certification against the US DoD 5015.2-STD standard, and has since presided over several successful software certifications. In 1999 he developed the world's first e-Records software engine for business software. That year he received ARMA Canada's National Capital Region's Ted Ferrier Award of Excellence for his contribution to the field of records management. Bruce's software was the first technology in the world to be certified against the revised 5015.2 June 2002 standard. In 2002 his company was acquired by IBM, where he served for three years as IBM's global e-Records Strategy and Business Development Executive. At IBM he was honored as a Technical Leader, one of only 439 out of 360,000 IBM employees. Mr. Miller is the recipient of the prestigious 2003 Emmett Leahy Award, considered the highest international recognition given to professionals in the field of information and records management. His book "Managing Records in Microsoft SharePoint 2010" was an ARMA best seller, and the second edition was released in October 2015. Bruce holds a Diploma in Electronics Engineering Technology, a Masters in Business Administration from Queen's University, and is a certified Information Governance Professional.

## **Course Topics**

Topic	Description					
Resource Utilization	Define and track the human resources and skillsets required. Allocate in-house versus					
Resource offization	external resources. Assign appropriate effort levels to each resource.					
Work Tasks	Define all the tasks that need to be scheduled, and allocate an effort level for each.					
The Project Model	Utilize a standardized EDRMS project management model designed by Bruce Miller. Adapt it					
	to your particular project characteristics.					
Critical Decisions	Make the 20+ critical decisions required of every EDRMS solution.					
Foundation & Implementation	Plan all the one-time tasks and effort levels up to the pilot (first usage) of the system. Includes					
	foundational tasks and the initial development and pilot phase.					
Deployment	Define the repeatable work tasks, resources, and effort level required for post-pilot					
	deployment across the entire organization.					
Business Unit Organization	Decompose the organization into business units, as the basis for project planning and effort					
Busiliess Offit Organization	estimation. Track progress through the organization.					
GANTT	Develop a high-level GANTT chart to predict project completion.					
Project Costs	Develop a realistic cost estimate/projection for project years 1 to 3.					
Project Management	Decide who will lead and drive the project, and take responsibility for the outcome. Define an					
Project Management	effective working project team with well-defined roles and responsibilities.					
Pilot	Design an effective pilot (Proof of Concept) project to validate the system meets business					
	requirements.					
User Adoption Plan	Design and deploy a User Adoption Plan, based on proven change management techniques,					
	to increase user adoption.					
Lessons Learned	Hear valuable lessons learned from real-life EDRMS deployments in government and					
Lessons Learned	corporate sectors.					

## **Advantages of RIMtech Online Private Courses**

- ✓ Content focused/tailored to your organization only, and your particular requirements/interests
- ✓ 100% vendor neutral content. No ties to products or services providers.
- ✓ Instruction by **Bruce Miller**. Learn from, and interact with, the top expert in electronic recordkeeping.
- ✓ Live instruction not pre-recorded.
- ✓ Real-world examples and experience from actual projects.
- ✓ The very latest in technology, techniques, and methods.
- ✓ Engaging, dynamic, interactive instruction. Exercises to facilitate learning.
- ✓ You get to keep materials and tools following completion.
- ✓ CRM/IGP credits for most courses.
- ✓ Official Completion Certificate.

#### **Technology Requirements**

- 1. Reliable, stable high-speed Internet connection
- 2. Computer/laptop with a hands-free microphone (headset, or built-in)
- 3. Zoom App available at https://zoom.us/download (downloads automatically upon first meeting sign-in)
- 4. Camera optional but recommended
- 5. Printer to print out course exercise materials (highly recommended)

#### **Terms and Conditions**

This is a summary only. See https://www.rimtechconsulting.com/terms-conditions for our detailed Terms and Conditions.

- Equipment Requirements. Each participant is responsible for the technology requirements above in order to participate successfully in any RIMtech online class or event.
- 2. Class Materials. Participants will receive all class materials in electronic form. Materials will be posted to a restricted page of RIMtech's website for that particular class.
- 3. **No-Shows**. If a participant fails to attend a class, RIMtech will make the class materials available for that participant.
- 4. Payment. Payment, or a Purchase Order, must be received by the class date. All invoices are due within 30 days.
- 5. Participant Contact. We require the name, email addresses, and telephone number of each participant prior to the start of each class.
- Participant Substitution. A participant may be substituted at any time, by contacting <u>natalie@rimtechconsulting.com</u>.
- 7. Class Size Reduction. Participant cancellations may result in a reduction in class size to a lower price level (e.g. from max 6 to max 3). In this case the difference in price between the original and the new class size will be refunded.
- 8. **Buyer Cancellation**. To cancel, you must notify us 10 days prior to the class date. The class fee will be refunded less a 10% administrative fee. Any cancellation received later than 10 days prior to class start date shall be liable for the full class fee.
- 9. **RIMtech Cancellation**. RIMtech reserves the right to cancel any class for any reason and will, in such an event, refund the full class cost. RIMtech will make every effort to notify registrants as soon as possible of any such cancellation.
- 10. **Buyer Postponement**. RIMtech will work with registrants to find a mutually acceptable reschedule date. If such a date is not acceptable to the buyer, a full refund will be issued less a 10% administrative fee.
- 11. RIMtech Postponement. RIMtech reserves the right to postpone/reschedule any class for any reason and will, in such an event, work with registrants to find a mutually acceptable reschedule date. If such a date is not acceptable to the registrants, a full refund will be issued. RIMtech will make every effort to notify registrants as soon as possible of any such cancellation.
- 12. Liability. RIMtech assumes no liability for changes in course dates or content.
- 13. Currency. All fees are in US dollars.
